

Depending on the characteristics of the research area, “internationally outstanding research results” can also include the PI’s experience as a representative of a large international collaboration (e.g., being a spokesperson who plays a central role in the project and is responsible for the whole operation of the project), as the author of prominent academic books (published in and after 2011) highly appraised within the international research community, and the like.

1. Read the “Procedures for Preparing and Entering a Research Proposal Document” when preparing this form.
2. This form is to be written in English.
3. Complete the form using font size 10-point or larger.
4. The title and instructions on the upper part of each page should be left intact.
5. This form is to be written in 2 pages for “Application Requirements that PI must meet,” 2 pages for the PI’s CV, and 2 pages for each Co-I’s CV. Therefore, if there are any blank page(s), leave them as they are (do not delete any pages).
6. Please bear in mind that this form is to be read by overseas reviewers as well as Japanese reviewers.

- The PI should have an indomitable spirit to search for elephant eggs even under strong doubts and criticisms by orthodox biologists.
- To lead an international group, the PI should be fluent in multiple languages.
- To communicate with elephants, the PI should be fluent in elephant's languages, both in African and Indian dialects.
- Most importantly, the PI should have a pure heart of a child.

An elephant was born from a big egg. That big egg was hatched by its mother elephant.
That mother elephant was born from another egg. That big egg was hatched by its mother
elephant. That mother elephant was born from another egg. That big egg was hatched by its
mother elephant. That mother elephant was born from another egg. That big egg was hatched
by its mother elephant. That mother elephant was born from another egg. That big egg was
hatched by its mother elephant. That mother elephant was born from another egg. That big
egg was hatched by its mother elephant. That mother elephant was born from another egg.
That big egg was hatched by its mother elephant. That mother elephant was born from another
egg. That big egg was hatched by its mother elephant. That mother elephant was born from
another egg. That big egg was hatched by its mother elephant. That mother elephant
was born from another egg. That big egg was hatched by its mother elephant. That mother
elephant was born from another egg. That big egg was hatched by its mother elephant. That
mother elephant was born from another egg. That big egg was hatched by its mother elephant.
That mother elephant was born from another egg. That big egg was hatched by its mother
elephant. That mother elephant was born from another egg. That big egg was hatched by its

CURRICULUM VITAE (CV) (no more than 2 pages)

| | | |
|-------|--|---|
| 1. PI | Name | Hideki YUKAWA |
| | Date of Birth | Feb. 29, 1900 |
| | Research Institution, Academic Unit (School, Faculty, etc.) & Position | Ausaka University, Shell Lab., Professor Emeritus |
| | Academic Degree | Ph. D |

2. Roles in this Project

Spokesperson of the research

3. Research Career and Experience

I have travelled all around the world and became fascinated with large mammals like whales and elephants.
